COLOUR FASTNESS TO RUBBING	ISO 11640	500 cycles dry	4 min (Grey Scale)
		50 cycles wet	4 min (Grey Scale)
COLOUR FASTNESS TO WATER	ISO 105-E01		4 min (Grey Scale)
COLOUR FASTNESS TO WATER SPOTTING	ISO 105-E07		4 min (Grey Scale)

### ANTICO PRODUCT INFORMATION:

**Type:** Waxed Aniline (Pull-Up)  
**Source:** Italy  
**Average Hide Size:** 4.5 - 4.8m<sup>2</sup>  
**Thickness:** 1.0 - 1.1mm

ANTICO is a waxed aniline leather produced on premium European hides. ANTICO has a luxurious and supple feel, which continues to enhance and soften with age. The antique effect of the waxed finish is a mark of prestige and tradition. Each hide of ANTICO responds differently to the tanning process, with natural scars, marks and colour variation remaining clearly visible. These inherent characteristics are the foundation of the beauty and sophistication of waxed leather.

ANTICO has been surface treated, allowing the individuality of waxed leather to be enjoyed without the concerns of an unprotected hide. ANTICO is suitable for a variety of residential and commercial applications.

All colours are in stock in our Australian warehouse and available for immediate off-the-shelf delivery.

Custom colours are available on request.

### COMPANY ENVIRONMENTAL NOTES:

ANTICO is produced by one of the world's leading tanners, the Rino Mastrotto Group – an ISO 14001 Certified company. This ISO Standard recognises organisations that are committed to environmental management and operate in an environmentally sustainable manner.

The tannery also carries the ISO 9001 Quality Certification. Their assurance of environmental responsibility extends to a full annual Environmental Impact Audit which accompanies their annual financial statements. This unique practice set the global benchmark for transparency in the tanning industry. The Rino Mastrotto Group utilises some of the most advanced waste management techniques in the industry, with all tannery wastage (liquid, gas and solid) treated to European Standards on-site and again at a shared off-site facility.

ANTICO is produced using only water-based dyes.

Detailed product and tannery environmental notes are available on request.
